

Outline for Test-Atomic Structure

1. Models of the atom.
2. Bohr + quantum mechanical atom
3. Spectral lines (coloured) are evidence for this.
4. Orbital - define -
5. Electron configuration
6. Diagonal rule / periodic table help.
7. Valence e^- - e^- dot diagrams
8. Trends in periodic table - evidence
9. Atomic size + ionization E - predict....

Test re-scheduled → Wed. Mar. 1
